# OUR PROGRAM

Since opening our doors in 2012 in rural Baja California, Mexico, we have been a beacon of hope for women and children who have been victims of abuse and trafficking. Over a decade later, MNC continues to uplift and support vulnerable families by offering a 13-room facility where they can reside together and receive care.

Throughout their approximately year-long stay at our facility, families are provided with nurturing care in a communal setting. During this time, they are disciplined and mentored in daily devotions and counselling. They are given the chance to explore various vocational opportunities, such as working at the onsite coffee shop, restaurant or bakery, hair salon, learning to sew and make sausage. These experiences not only help them gain valuable skills but also boosts their confidence and prepares them for their next steps.

After their initial stay, families move into a transition home for an additional period of time, where they continue to receive support as they reintegrate into society and explore further employment opportunities. Once a woman owns her own property, many families have the privilege of having a house built for them. There are now over twenty houses across the road from our ministry where "graduated" women and their children live.

I will give you hidden treasures, riches stored in secret places, so that you may know that I am the Lord, the God of Israel, who summons you by name. Isaiah 45:3

Did you know that we have an on-site restaurant, coffee shop and hair salon? These establishments function as a training venue for our women.
